

# Eco-Schools Committee

## Meeting

09/03/2017

### Minutes of meeting:

Present

Mr George, Kira, Nancy, Sam, Tom, John, Finn. Matthew, Emily, Josuha & Robbie.

### **Evaluation of School Grounds**

Committee agreed that looking at the data collected by all the pupils it was clear that providing bird feeders encouraged more wildlife into our school grounds. Before birdfeeders, **17** birds were spotted by eagle eyed P6/7's, compared to **41** after bird feeders. Success!

Committee also discovered that CHEERIOS was a firm favourite among the birds.

Committee agreed that this success should be celebrated in school assembly.

Committee also agreed to continuing focusing on:

Holding a school assembly on the importance of maintaining a litter free zone.

Hold a tidy up day. Encourage parents/community to be involved.

Count the bags of rubbish to see if we are using the bins more.

Each class will construct energy saving posters (vote for best ones and put around school).

Encourage everyone to turn off the lights.

**Monitor** energy bills to see if we used less electricity.

Write to the local newspaper to tell them about our Eco-school project.

Finn (secretary)
